

# SOYA BEANS

## CAP 2258 IPRO

### OVERVIEW

Intacta RR2 Pro contains the technology that offers resistance to Bollworms as well as the new RR2 Gene with increased yield potential.

- Indeterminate
- Medium-Early
- Average Yield 4.5mt/ha
- Tolerant to leaf rust
- Flower colour - Purple

Number of days to 50% flowering	54
Number of days until harvest	137
Maturity Group	5.8
Plant height	104
Pod height	19
Tolerance	Good
Yield potential	Good
Growth type	Indeterminate
