

# SOYA BEANS

## CAP 2249 IPRO

### OVERVIEW

Intacta RR2 Pro contains the technology that offers resistance to Bollworms as well as the new RR2 Gene with increased yield potential.

- Determinate (not Indeterminate)
- Very Early maturing
- Average Yield 4.5mt/ha
- Tolerant to leaf rust
- Flower colour - Purple

Number of days to 50% flowering	38
Number of days until harvest	129
Maturity Group	4.9
Plant height	85
Pod height	13
Tolerance	Good
Yield potential	Good
Growth type	Determinate
